

A. Landmarks and modules

Head-Sensory

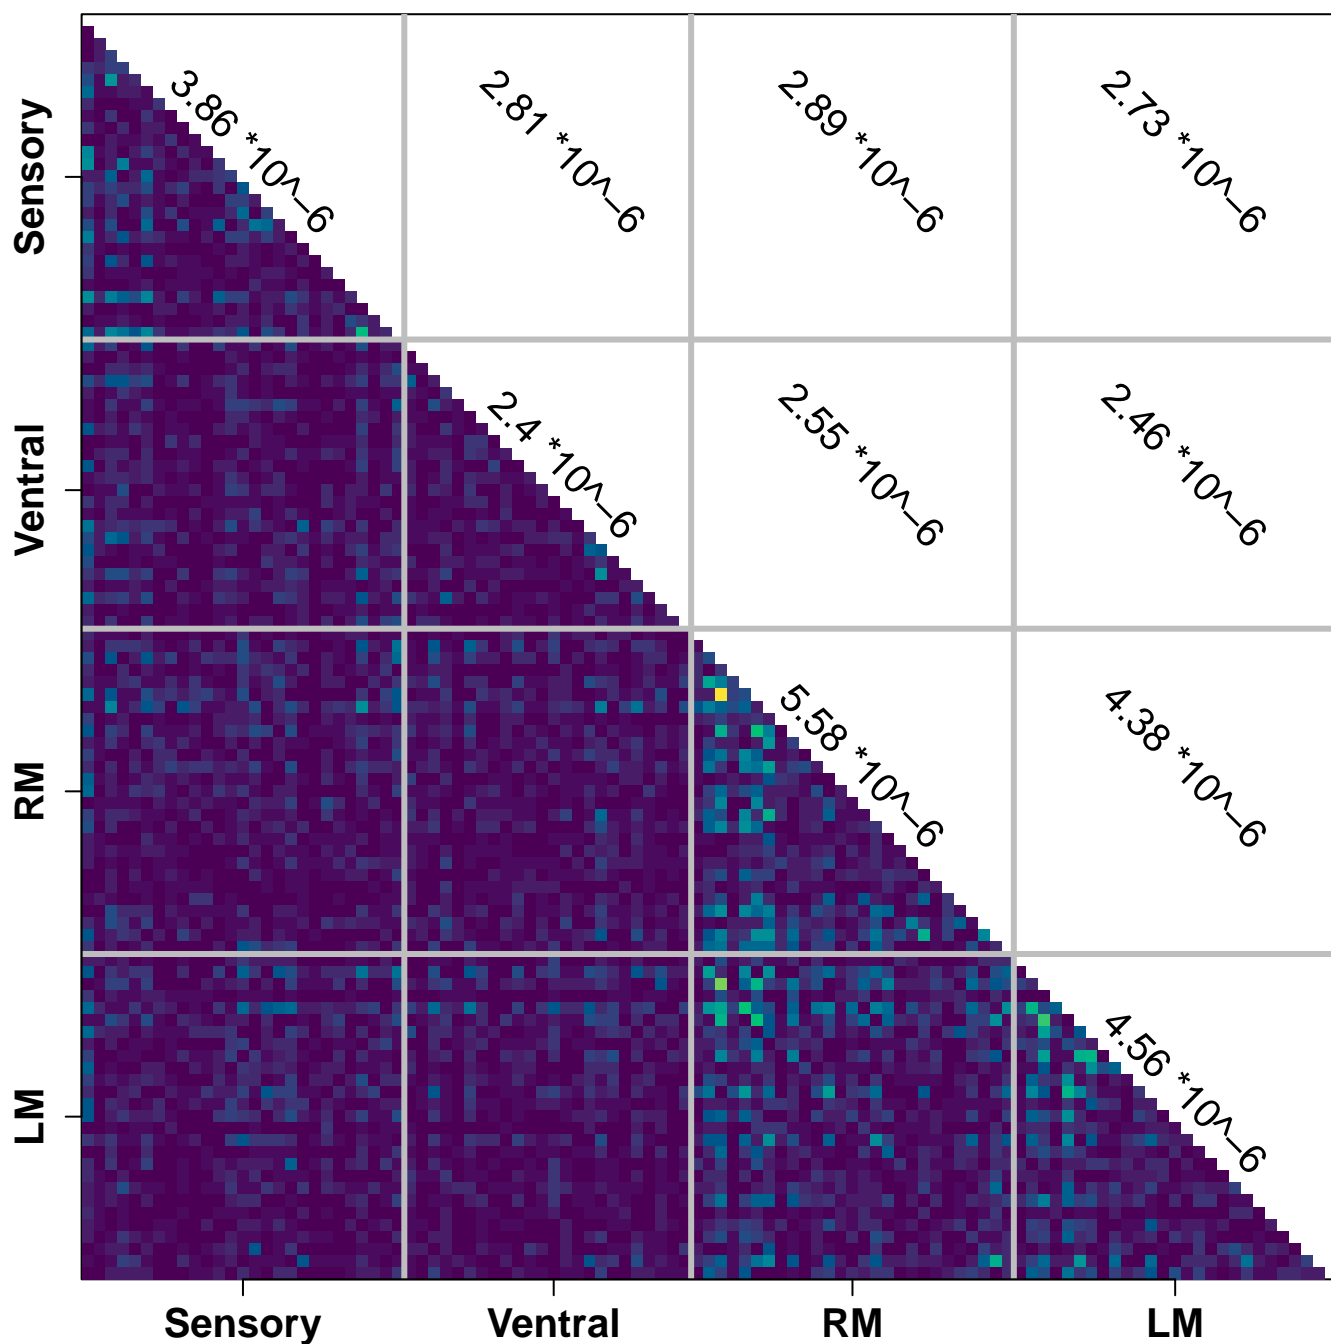

Head-Ventral

Right Mandible

Left Mandible

- topEyer – Dorso-sagittal most point of the right eye's edge
- topEyel – Dorso-sagittal most point of the left eye's edge
- mOcr – Middle of the right oculus (in front of the eye)
- mOcl – Middle of the left oculus (in front of the eye)
- Agr – Middle of the lower side of the right antenna joint
- Agl – Middle of the lower side of the left antenna joint
- mOm – Middle of the median ocellus
- bOnr – right side dorsal starting point of the subocular line
- bOnl – left side dorsal starting point of the subocular line
- CTTdvr – right crossing point between the tentorial bridge and posterior tentorial arm
- CTTdvl – left crossing point between the tentorial bridge and posterior tentorial arm
- eSOEr – right side crossing between subocular line and junction between frons and clypeus
- eSOEl – left side crossing between subocular line and junction between frons and clypeus
- mEn – Middle point of the junction between frons and clypeus
- ICLr – right-most point of the junction between clypeus and labrum
- ICLl – left-most point of the junction between clypeus and labrum
- mCLn – Middle point of the junction between clypeus and labrum
- fAMAdr – Anterior insertion point of right mandible adductor muscle
- dAMAdr – Posterior insertion point of right mandible adductor muscle
- fMGr – right anterior mandible condyle
- fAMAbr – Anterior insertion point of right mandible abductor muscle
- dAMAbr – Posterior insertion point of right mandible abductor muscle
- dMGr – right posterior mandible condyle
- IM3r – Tip of third right incisivus
- IM2r – Tip of second right incisivus
- IM1r – Tip of first right incisivus
- fAMAdl – Anterior insertion point of left mandible adductor muscle
- dAMAdl – Posterior insertion point of left mandible adductor muscle
- fMGI – left anterior mandible condyle
- fAMAbI – Anterior insertion point of left mandible abductor muscle
- dAMAbI – Posterior insertion point of left mandible abductor muscle
- dMGI – left posterior mandible condyle
- IM3l – Tip of third left incisivus
- IM2l – Tip of second left incisivus
- IM1l – Tip of first left incisivus

B. Coordinate covariance matrix

C. Landmarks congruence matrix
